The above table contains a list of locations within our FTTP Fibre First Towns, Cities and Boroughs Build Programme. It does not show FTTP deployment related to BDUK, new sites/retro new-sites, market towns and villages and other smaller scale programmes or infill. Openreach has exercised its best efforts to ensure that the contents of this table accurately reflect its relevant FTTP build plans at the time of publication. Details at an exchange level are shown only where Openreach expects that it will build in the greater majority of the relevant exchange.

Openreach will keep this information updated on a rolling basis, including to reflect any possible changes to existing plans which may become necessary due to unforeseen operational obstacles (particularly where build is yet to commence).

* Programme Build Complete refers to the exchanges where build has been largely completed as part of the FTTP Fibre First Towns, Cities and Boroughs Build Programme, but does not mean that services will be available from this date, nor that services will be available to every premise.

Market Towns and Villages

Youlgreave	Youlgreave	Yes	
Yoxall	Yoxall	Yes	
Yr Hendy	Pontardulais	Yes	

The above table contains a list of Openreach's FTTP locations within our current network build plans in market towns and villages (the vast majority of which are in Area 3) up to December 2026. It does not show FTTP deployment related to BDUK, new sites/retro new-sites, Fibre First Cities and other smaller scale programmes or infill.

Openreach has exercised its best efforts to ensure that the contents of this table accurately reflect its relevant FTTP build plans at the time of publication. Openreach will keep this information updated on a rolling basis, including to reflect additional locations in later phases of network build, or changes to existing plans which may become necessary due to unforeseen operational reasons (particularly where build is yet to commence).

* Programme Build Complete refers to the exchanges where build has been largely completed as part of the Market Towns and Villages Build Programme, but does not mean that services will be available from this date, nor that services will be available to every premise.
